01. Part X, Line 2-Text in footnote regarding FIN 48 (ASC 740)

The Organization requires that a tax position be recognized or derecognized based on a "more likely-than-not" threshold. This applies to positions taken or expected to be taken in a tax return.

The Organization does not believe its financial statements include, or reflect, any uncertain tax positions.

The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position.

Examples of tax positions include the tax-exempt status of the Organization and various positions

Part XIII Supplemental Information (continued)

related to the potential sources of unrelated business taxable income (UBIT). The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as liabilities for at year end. The Organization's policy would be to recognize interest and penalties, if any, on tax positions related to its unrecognized tax benefits in income tax expense in the financial statements. No interest and penalties were assessed or recorded during the year.
