

## OUR MISSION

We support poor and disadvantaged women, men and communities in developing and transition countries in their efforts to improve their living conditions.

Through development cooperation, we support women and men in improving their livelihoods themselves in a sustainable manner.

We promote equitable access to the resources and services necessary for life and thus contribute to overcoming the root causes of poverty.

We uphold the protection and promotion of social, economic, political, environmental and cultural rights and responsibilities and seek to ensure their practical implementation.

We support our partners in engaging in development policy issues.

We advocate for a coherent Swiss foreign and economic policy, responsive to the needs of men and women in developing and transition countries.

We accompany and support our partners on a long-term basis.
